

Mr. Nikhil Bhagat of VATSALYA TRUST MUMBAI,

E-gyan - Kanjurmarg Center

Success Story November 2018

Students Project Connect: Nikhil has enrolled in Basic course at our computer center after he completed his SSC exam. His aim was to secure a job. His parents are from underprivileged background, in his family include mother, father with younger brother. Nikhil is staying at Kanjurmarg.

His father is working at Vatsalya Trust Kanjurmarg as a security guard, being the only earning member of the family. Nikhil wants to work either part / full time on Computer based work as office Asst. He is very confident and always eager to learn new things. He wants to assist his family; so, for that he joined the course.

His project journey- he completed Basic Course in Sept 2018. He also underwent soft skills training from trainers. And LTI employee volunteers guide him in communication skills.

Outcome- He had also contacted Vatsalya for good job. The center career counselor helped him to identify find employment. He was shortlisted by organizations at job fairs but as location of the offices were at Andheri and Navi Mumbai, which were inconvenient for him. He was a slow learner and took time to understand concepts. Ultimately after a hard and several Interviews, Nikhil got a job at Crompton Greaves Kanjurmarg through Vatsalya trust as Welder in Welding Department. His present salary is Rs. 12000/-.

Testimonial- I am very confident, happy and satisfied about my course in digital literacy. I am thankful to LTI and Vatsalya Trust Because I received training in soft skills and other important skills.

A NICE CLICK OF Nikhil :::::::::::::::::::::
