

Ms. Bhakti Surykant Parab

PAP Year 2021-22

My name is Ms. Bhakti Surykant Parab and I come from a poor family which stays in one of the slums in Bhandup East in Mumbai. I am accompanied with my parents and a younger brother.

I got to know about the one year program of Patient Assistant Program which was conducted at Vatsalya Trust , I was eager to join it to attain my dream of working in Hospital set-up.

During the course I did the internship at Mrudula Hospital, Bhandup (E), wherein I was paid a salary of Rs. 2500 and I progressed steadily in the work. After my certification, my salary grew to Rs. 9000 which was based on my performance.

From the bottom of my heart, I thank Vatsalya Trust Mumbai for transforming me to become self-reliant and succeed in my life by maximizing the available resources which I had. The training helped me to gain confidence and enhance my communication skills which I could apply in my job. I recommend this course to other needy girls who want to make a career in the healthcare industry.

Thanks Vatsalya Trust!
